ETH ENTREPRENEUR CLUB

STARTUP SPEED DATING

https://entrepreneur-club.org/events/dating/

Content

Preface

Welcome to the Startup Speed Dating!

Welcome to this unique opportunity for startups, students and innovation enthusiasts to connect: to match inspiring ideas with outstanding candidates, strong partners, and motivated team members.

Today, we ask the startups among us: what's the purpose of your business? How do you motivate young academics to start at your company? What's your greatest challenge?

We ask you, students: why are you enthusiastic about entrepreneurship? How will you make a difference? Where is your future co-founder? She or he might be among us today!

We invite you all to seize today's opportunity to meet other young talents, talk to our sponsors and business angels, connect with innovative companies, challenge conventional ideas and make an impact on this world!

Your ETH Entrepreneur Club

ETH ENTREPRENEUR CLUB

The Entrepreneur Club is a student initiative at ETH Zurich striving to bring entrepreneurial-minded people together and to foster entrepreneurship amongst students. Through startup events and our community, we provide a platform to develop ideas, build teams and exchange experiences. Our mission is to bring together students with diverse backgrounds who share the same passion for entrepreneurship. If you are ready to change the world and make an impact, you have come to the right place!

Do you share our passion for entrepreneurship?
Then join the Entrepreneur Club!

Website: https://entrepreneur-club.org/events/dating/
Facebook: eth.ec/facebook

The Event

On Tuesday, May 12th, 2020, starting at 17:15, we will organise livestreams with the help of CareerFairy, a platform where companies can present themselves and students can ask questions via the chat. The startups will be presenting themselves in the assigned timeslots where they can host a livestream in front of a wide range of ETH students looking for interesting internship/job/thesis opportunities. We would like to point out that Careerfairy also offers the possibility for students to provide information about themselves, allowing the startups to make a decision about which students they may be interested in.

Scale Up & APP
17:15   Beekeeper, Careerlunch,
17:45   VAY, Sparksense
18:15   Exnaton, ROICE
18:45   YASAI, Findependent
19:15   Typewise, Miacar

Engineering & Medtech
17:15   Fotokite, Asperotouch
17:45   Polariton, DoryHealth
18:15   XRnanotech, VitaCode
18:45   Archlet, Iaculis
19:15   Squib Lab, HexagonFab

Startup Overview

1	Archlet	11	Miacar AG
2	Asperotouch	12	Polariton Technologies
3	Beekeeper	13	ROICE
4	Career Lunch	14	sparksense.co
5	DoryHealth	15	squib lab.
6	Exnaton	16	Typewise
7	findependent	17	VAY
8	Fotokite	18	VitaCode
9	HexagonFab	19	XRnanotech
10	IACULIS GmbH	20	YASAI

1

Archlet
www.archlet.io

Contact
contact@archlet.ch

We are a rapidly growing startup founded out of a student consulting project at ETH Zürich. We are passionate when it comes to helping businesses to radically transform their purchasing processes with the help of data science. We have just recently been funded and are now looking to scale our team (data scientists and software architects). You will feel the exciting startup atmosphere, the moment you walk into our office. Working with us is not just a job, but rather about building products with like-minded and innovative team mates.

Stage	Age	Size
Early operational startup	Less than 1 year	6-10 people

We are looking for...
Programming (web), Programming (back-end), Design

We are offering...
Job position, Internship, Bachelor / Master thesis, Shares

Asperotouch
asperotouch.com

Contact
marten@asperotouch.com

Asperotouch is tackling mental health issues related to anxiety, insomnia, addictions, and impulsive behavior by creating an engaging solution for struggling individuals to overcome these challenges faster and easier as ever before.
Our solution is a haptic breathing pacer which is wearable and allows for an inconspicuous interaction anywhere and at any time. We anticipate enabling predictive environmental data triggering and using machine learning to optimize usage of bundled hardware and digital services for users and clinicians.

Stage	Age	Size
Prototype	Less than 1 year	1-5 people

We are looking for...
Programming (mobile), Engineering, Marketing

We are offering...
Internship, Bachelor / Master thesis

3 BEEKEEPER

Beekeeper
beekeeper.io

Contact
iwanttowork@beekeeper.io

Beekeeper exists because we believe people should be happy at work and have all the information they need to perform their jobs.

Our communication tool is an easy to use mobile solution tailored towards front-line workers - think retail staff or factory workers. With the Beekeeper app, they can reach their team, check their shifts, and receive important company information all in one place.

Stage	Age	Size
Advanced operational startup	More than 5 years	10+ people

We are looking for...
Programming (web), Programming (back-end), Programming (mobile), Engineering, Marketing, Sales

We are offering...
Job position, Internship, Bachelor / Master thesis

Career Lunch
https://career-lunch.com

Contact
simon@career-lunch.com

Traditional recruitment doesn't make it easy to assess a candidate's cultural fit or give prospective hires much insight into their possible future work and colleagues. We built career-lunch.com to pair potential hires and employers for informal exchanges over lunch (offline and online) and give both sides more authentic opportunities to get to know each other. Current customers include international brands such as PwC, Accenture, and Siemens. We are now expanding from Switzerland to Austria, Germany and France. Join our rocket ship!

Stage	Age	Size
Early operational startup	Less than 1 year	6-10 people

We are looking for...
Programming (web), Programming (back-end), Engineering, Marketing, Finance, Design

We are offering...
Job position, Internship, Shares

DoryHealth

DoryHealth
www.doryhealth.com

Contact
luca.isenmann@doryhealth.com

Estimated 50% of chronically ill patients do not take their medication as prescribed causing 200'000 premature deaths and 125 billion costs in Europe alone.
We combine a smart pillbox, data analytics, and pharmacy services to target the key drivers of non-adherence and connect all involved players in one solution.
We are mainly looking for students with a technical background to work on the programming of the box and app and improve the electronics e.g create a custom PCB
Pharmacy and medical students are also welcome to apply.

Stage	Age	Size
Prototype-phase	Less than 1 year	1-5 people

We are looking for...
Life sciences, Programming (web), Programming (back-end), Programming (mobile), Engineering, Design
We are offering...
Job position, Internship, Bachelor / Master thesis, Phantom stock

exnaton

Exnaton
www.exnaton.com

Contact
info@exnaton.com

Exnaton is your software partner for the energy transition. We trust in the potential of energy data and offer data-based services targeted at the acceleration of the energy transition.
In developing our platform, we build on our technical expertise in software development, data analytics, and behavioral interventions such as on our domain expertise around local energy markets acquired in the renowned Quartierstrom research project. Join us in fulfilling our mission!

Stage	Age	Size
Prototype-phase	Less than 1 year	1-5 people

We are looking for...
Programming (web), Programming (back-end), Programming (mobile), Engineering, Design
We are offering...
Job position, Internship, Bachelor / Master thesis, Shares

7

findependent
www.findependent.ch/

Contact
matthias.bryner@findependent.ch

We are findependent, a young Swiss Fintech-Startup on a mission to build an easy-to use app-based investment solution to help people achieve their financial goals.
We will launch our app in June and our first customers are already using our investment solution. We are looking for someone to further develop our backend software with the prospect to join our founding team.
If you are a self-starter and want to make a high-impact contribution to our young startup join our livestream to learn more!

Stage	Age	Size
Early operational startup	Less than 1 year	1-5 people

We are looking for...
Programming (web), Programming (back-end), Programming (mobile)

We are offering...
Job position, Internship, Shares, Join founding team

FOTOKITE

Fotokite
fotokite.com

Contact
emma@fotokite.com

At Fotokite, we create cutting-edge tools that assist public safety teams with enhanced situational awareness. We build fully autonomous, persistent, and reliable aerial systems that provide invaluable overview information to firefighters and rescuers to help manage complex, safety-critical situations.

Stage   Age   Size
Advanced operational startup   More than 5 years   10+ people

We are looking for...
Programming (web), Programming (back-end), Engineering, Marketing, Finance, Design

We are offering...
Job position, Internship, Bachelor / Master thesisand a downtown Zurich office.

9

HexagonFab

HexagonFab
www.hexagonfab.com

Contact
chirstoph.bieberstein@hexagonfab.com

HexagonFab develops biological sensors based on graphene-technology. These sensors are used to analyze proteins and their interactions. These sensors are needed by scientists in drug discovery, manufacturers of biopharmaceutical drugs and producers of point-of-care and wearable products.

Customers buy our sensors because they offer unmatched sensitivity, real-time results, high-throughput capabilities and extremely small size.

Stage	Age	Size
Prototype-phase	1-3 years	1-5 people

We are looking for...
Life sciences, Engineering

We are offering...
Job position, Internship, Bachelor / Master thesis, Shares

IACULIS GmbH
www.iaculis.ch

Contact
sonia.froehlich@iaculis.ch

We provide medical communication services for customer from pharmaceutical industries, physician associations, patient organization and neutral platforms. Our target groups are Health care professions als well as patients, their families and the general public. We are all scientists what is essential to understand the trials and scientific publications that are the base of our daily work.

| Stage	Age	Size
Advanced operational startup	4-5 years	6-10 people

We are looking for...
Life sciences

We are offering...
Internship, Bachelor / Master thesis

11

MIACAR AG
www. miacar.ch

Miacar is a mobile-only grocery shopping startup with its own logistics operations! We are an independent startup, backed by one of Switzerland's largest retailers, operating in Bern and expanding rapidly across Switzerland. Miacar is going to revolutionize grocery delivery like Uber did with Taxis.

Simple UX, no delivery fees and CHF25 minimum order. How do we do it? By radically optimizing our logistics with algorithmic approaches, using small electric delivery vans, and even running our own distribution center!

Stage	Age	Size
Advanced operational startup	1-3 years	10+ people

We are looking for...
Programming (web), Programming (back-end), Programming (mobile), Engineering, Design, Product Management
We are offering...
Job position

Polariton Technologies AG
www.polariton.ch

Contact
join@polariton.ch

Polariton Technologies is a ETH spin-off developing cutting-edge devices for optical communications. We are about to launch our first product based on a novel electro-optic modulator. We enable customers to send data with unprecedented speed and quality. The modulators are used in research and industry. Join our team and work closely together with Claudia, Eva, Patrick, Benedikt, and Wolfgang developing the next generations of our products.

Stage	Age	Size
Prototype-phase	1-3 years	1-5 people

We are looking for...
Engineering, Finance, Back office

We are offering...
Job position, Internship, Bachelor / Master thesis, Student assistant

ROICE

We sense your taste

ROICE

Contact

www.positrigo.com

annina.mueller@student.unisg.ch
frederik.frank@bain.com

Have you ever wanted to look for a new cool restaurant, but got frustrated after reading hundreds of reviews? Then ROICE is the right choice for you! After answering a few questions, you receive a personalized restaurant recommendation tailored to your needs.

ROICE is currently in the early-prototype phase: We validated the business idea with experts, mentors and the target customer group. After having received initial funding and support by a foundation, we are now looking for a CTO and plan to incorporate a company later this year.

Stage	Age	Size
Idea-phase	Less than 1 year	1-5 people

We are looking for...
Programming (back-end), Programming (mobile)

We are offering...
Shares, Co-Founder/ CTO

sparksense.co

From Tech to Market

sparksense.co
sparksense.co

Contact
herve@sparksense.co

Sales is the life blood of Business. For Startups winning first customer is tough. At Sparksense.co, we help European Tech Startups win their first customers in robotics, materials, IoT, Software or Environmental technologies. We work with ETH Pioneers Fellow, EPFL Innovation Park, Climate KIC, Werk 1 Munich, Station F Paris. We look for Engineering talent to expand our team. As Business Development Associate you can work remotely and part time. Your chance to grow your industry network, live your passion for startups and technology!

squib lab.

squib lab.
www.squib.app

Contact
hello@squib.app

Hi there! Do you like the startup groove as much as the development of an empirically tested mobile application? Are you a coder or a '''young generation marketer''''? Cool! We are four dedicated guys who develop an attractive app parallel to our studies/work, whose market potential has been tested and confirmed by the target groups. Find out more at our 30-second-pitch or online www.squib.app. We look forward to get in touch with you. PS: Co-Founder basis, no classic employee contract.

Stage	Age	Size

We are offering...
Shares, Co-Founder

Typewise
https://typewise.app

Contact
david.eberle@typewise.app

We build the most secure and intelligent human-machine interface, starting with the smartphone keyboard. We've developed a text prediction AI that works completely offline.The first product, our keyboard app, was released in Dec 2019 and has already grown to 48,000 users. It reduces typos by 4X compared to the standard keyboard, while protecting user privacy.

We work with ETH's Data Analytics Lab (funded by Innosuisse) to develop an advanced AI technology that can be transferred to voice recognition, brain-computer interfaces, etc.

Stage	Age	Size
Early operational startup	1-3 years	1-5 people

We are looking for...
Programming (back-end), Programming (mobile), Engineering, Marketing, Design

We are offering...

XRnanotech

XRnanotech
www.xrnanotech.com

Contact
info@xrnanotech.ch

XRnanotech is an award-winning Swiss deep tech company. We address the world-wide need for advanced X-ray optics to focus ever higher energy beams onto the smallest possible samples like viruses, proteins or microchip transistors. This is crucial for research, medicine and industry. In this niche, we provide unique so-lutions for several hundred large-scale R&D beamlines and high-tech companies around the world. Our vision is to enable them to analyze yet unmeasurable nano-systems.

Stage	Age	Size
Idea-phase	Less than 1 year	1-5 people

We are looking for...
Engineering, Marketing, Finance, Design

We are offering...
Job position, Internship, Bachelor / Master thesis

Yasai
www.yasai.ch

Contact
info@yasai.ch

YASAI is an ETH Spin-Off in Circular Vertical Farming. We are an interdisciplinary and international team of architects, designers, engineers, urbanists and business experts. Our aim is to create Circular Food Systems for Smart Cities. We want to bring farming closer to the people, reduce food miles, produce premium quality products and save the most valuable resources of our planet - Fresh water & land. We as Yasai, want to contribute to the sustainable transformation of agriculture in the 21st century. We grow more with less!
